

GMP – Getting Started, Getting Funded

Event with presentations & panel discussion

Are you interested in Good Manufacturing Practice (GMP)? Do you have a great innovation and the proof of concept? Is your innovation ready to take the next steps, but you are unsure how to proceed and scale up production?

Date: 17 September 2026
Time: 12:30 – 16:30
Location: University of Zurich
Registration (free):

If you want to learn about the regulatory framework of GMP...

If you want to know what it takes to translate innovations from the bench to production...

If you are wondering what GMP options are available in Zurich...

If you would like to learn more about funding options for GMP transition...

... join our event and get first-hand information from experts in the field!

Presentations:

“Good Manufacturing Practice Introduction”

Dr. Michael Nägeli, Regenerative Medicine Technologies Platform, Wyss Zurich, University of Zurich and ETH Zurich

“GMP Manufacturing in Zurich: Facilities, Capabilities and Strategic Fit”

Dr. Ralph Schiess, Zurich Hub for Drug and Device Development, University of Zurich

“Translating ideas to reach the ones in need”

Dr. Jenny Prange, Regenerative Medicine Technologies Platform, Wyss Zurich, University of Zurich and ETH Zurich

“From Prototype to Patient: Manufacturing Challenges and Opportunities in Building a MedTech Startup”

Elias Bachmann, ZuriMed Technologies AG, Zurich

“Who actually funds GMP readiness & what are they really funding?”

Dr. Andreea Cretu, BioMed Entrepreneurship programs, Institute for Regenerative Medicine, University of Zurich

**Don't miss the
opportunity to submit
questions during
registration!**
