

12th CABMM Symposium “All about tendons”

Thursday, June 29th, 2023
University of Zurich, Main Building
Lecture room KOL-E-18

12:45 – 13:00 **Welcome**

“Tendons – human and veterinary medicine perspectives”

13:00 – 13:45

Keynote Lecture:

“Rotator cuff repair – current concepts and future expectations”

Prof. Karl Wieser, Department of Orthopedics, Balgrist University Hospital, Zurich

13:45– 14:15

“New strategies for the treatment of tendon injuries in horses”

Prof. Anton Fürst / Dr. Corsin Heim, Equine Department, Vetsuisse Faculty, University of Zurich

14:15 – 14:45

Coffee Break

“Tendons – insights into new treatment options, industry and basic research”

14:45 – 15:15

“Development journey of an innovative tendon repair technology: an industry perspective”

Elias Bachmann, ZuriMED Technologies AG, Zurich

15:15 – 15:45

“Primary Progenitor Tenocytes: Cytotherapeutics and Pathways for Clinical Use”

Alexis Laurent Pharm MSc / Prof. Lee Ann Laurent-Applegate, Department of Musculoskeletal Medicine, University Hospital Lausanne

15:45 – 16:15

“Preclinical in vivo GLP safety and efficacy testing of novel tendon repair devices – challenges and opportunities”

Dr. Salim Darwiche, Musculoskeletal Research Unit, Vetsuisse Faculty, University of Zurich

16:15 – 16:45

Coffee Break

“CABMM Start-up Grant projects”

16:45 – 17:15

“Canine spontaneous meniscal degeneration: A suitable model for translational medicine?”

Prof. Antonio Pozzi, Clinic for Small Animal Surgery, Vetsuisse Faculty, University of Zurich

17:15 – 17:45

“Modic changes in Low Back Pain: how bone marrow stromal cells may contribute to pain”

Dr. Stefan Dudli, Center of Experimental Rheumatology, University Hospital Zurich and Balgrist University Hospital

17:45

Concluding remarks

Followed by an Apéro for all participants
