

GLP – Do I need it?

Workshop with presentations, poster sessions & panel discussion

**What is Good Laboratory Practice (GLP)? Is it only an administrative hassle?
When do you need it? Could GLP influence animal welfare or data quality?
And why do we need GLP in academia?**

Date Tuesday, November 5th, 2024
Time 13:00 – 17:30
Location Lecture room Y03-G-91, Irchel Campus, University of Zurich

[Registration &
full program](#)

If you would like to get general information about GLP...

If you have already asked yourself, whether or when you need GLP to bring your innovative research project forward to clinical use...

If you are planning to do a GLP experiment...

If you need to find the right partners to perform a GLP study...

If have you thought about your facility joining a GLP compliance program...

... join our workshop and get first-hand information from our experienced team!

Presentations:

“GLP testing and the translational pipeline”

Salim Darwiche, PhD (GLP Study Director)

“GLP – do I need it? When? Why? And how?”

Flurina Clement Frey, PhD, and Dario Hüsler, PhD (GLP Quality Assurance)

“GLP in animal welfare and monitoring”

Peter Kronen, Dipl. ECVA (GLP Study Director)
