

## 6<sup>th</sup> CABMM Symposium

Thursday, November 5<sup>th</sup>, 2015  
University of Zurich, Irchel campus  
Theatre Room Y21-F-65A

12:15 - 12:30 **Welcome**

---

### ***Session 1: Round table "Innovative imaging technologies"***

- 12:30 - 12:50 ***"Philips iQon - the world's first spectral detector-based CT"***  
Dr. Dirk Müller, Clinical Scientist in Computed Tomography at Philips Healthcare, Germany
- 12:50 - 13:10 ***"Hybrid-Photon-Counting Detector – a disruptive Technology"***  
Dr. Christian Brönnimann, CEO Dectris Ltd., Switzerland
- 13:10 - 13:30 Discussion
- 13:30 - 14:00 *Coffee break*
- 

### ***Session 2: Presentations***

- 14:00 - 14:45 ***"Corneal Cross-Linking - using light to save sight"***  
Prof. Dr. Dr. Farhad Hafezi, ELZA Institute AG, Dietikon, Switzerland
- 14:45 - 15:30 ***"Chemical Ligations for the Synthesis of Proteins and Hydrogels"***  
Prof. Dr. Jeffrey Bode, Laboratory of Organic Chemistry, ETH Zurich, Switzerland
- 15:30 - 16:00 *Coffee break*
- 

### ***Session 3: Presentations***

- 16:00 - 16:45 ***"Current state of the art in surgical cartilage repair"***  
PD Dr. Gian Salzman, Joint Center, Schulthess Klinik, Zurich, Switzerland
- 16:45 - 17:15 ***"Biomimetic alginate sulfate hydrogels for cartilage tissue engineering"\****  
Ece Öztürk, Cartilage Engineering and Regeneration Laboratory, ETH Zurich, Switzerland
- 17:15 - 17:45 ***"Expression, regulation and relevance of hyaluronidases in the intervertebral disc"\****  
Dr. Karin Würtz-Kozak, Laboratory for Orthopaedic Technology, ETH Zurich, Switzerland
- 

17:45 - 18:00 **Concluding Remarks**

18:00 *Apéro*
